No Possibility of Protecting Soldiers Home Inmates by National Legislation, He Says-Captain Coney's Efforts Toward a Needed Reform.

TOPEKA, KAS., May 14.—(Special.) United States Senator W. A. Harris is indignant because the authorities in Leaven worth county permit so many joints and dives to flourish in the vicinity of the Sol-diers' home. In a letter to Captain Coney here he expresses his contempt for the offi-cials who willfully violate their oaths of office, and declares that the people of Kan-

reant officials. This expression was brought out in cor-espondence had between Harris and Coney respondence had between Harris and Coney relative to the passage of a law by congress prohibiting the sale of liquor to insure so the home. Captain Coney took the position that the government could regulate that matter just as well as it could the sale of liquor in Indiana. He prepared a bill covering the matter and sent it to the Kansas delegation, together with a letter explaining the reason for so doing. In his letter he said, among other things:

"It is useless to try to compel the authorities at Leavenworth county to enforce the law. The state administrations, which should obey the laws and enforce them, could compel the authorities of Leaven-worth county to enforce the prohibitory law, but the trouble is this, as you are aware, that they politically dicker, prosti-tute and betray the law for political advantage in such localities, and Governor Roland told me that he was poweriess to remedy the condition there as long as the efficials of Leavenworth county openly con-nive with the hell holes to allow them to commit their crimes. Unless national legis-lation can reach this condition and cure it, I see but little hope for relief unless we can get a state administration in Kansas that will obey their oaths of office and en-force the laws as they find them. Something stringent should be done to remedy this curse to the wards of the nation. We owe it to decency; we owe it to economy; we owe it to the general welfare and the obligations of the nation; to its defenders to throw protection around them against the hyenas that have surrounded the Leav-

nworth Soldiers' home."

In his reply, Senator Harris says that he laid the matter before Senators Se-well and Mitchell, both on the board of managers of the home, and that they said national legislation of the kind indicated is impossible; that they have worked it all over and have decided that the only possible way these things can be remedied is by state regulations. Senator Harris ludes his letter thus:

"Certainly Kansas has no excuse for tolerating or permitting anything of the kind, as it is absolutely contrary to her whole system of law. I think if a little fire was built under the county officers of Leavenworth, who are responsible for the enforcement of the law in the vicinity of the Soldiers' home that something might of the Soldiers' home that something might be done, and the indignation of the state could be so concentrated upon the matter that the people of Leavenworth would wake up to the necessities of the case." Congressman Case Broderick replied in a letter saying that it would be impossible to reach the matter through national legislation. He said the government could prohibit and had prohibited the sale of fiquor on its reservations, but it could not liquor on its reservations, but it could not pass a law that would be effective off the reservations. He says that the government should take some steps to compel the local authorities to close those places.

Captain Coney has received no replies from any of the other members of the Kansas delegation concerning the matter. SAYS IT HAS REDUCED RATES.

Western Union Making a Hard Fight Against Increased Assessment in Kansas.

TOPEKA, KAS., May 16,-(Special.) few days ago representatives of the West-ern Union Telegraph Company appeared before the state board of railroad as-sessors and asked for a reduction of the

before the state board of railroad assessors and asked for a reduction of the assessment of the company's property in Kansas. They asserted that the price of material necessary to build and equip telegraph lines was getting very cheap now, and that a line could be built for less money than the present assessment.

They were asked if the company had scaled down its charges in comparison to the reduction in the price of material. They declared they had.

Attorney General Boyle said he had paid 5 cents a message ever since the memory of man runneth not to the contrary and Secretary of State Bush declared that he had never noticed any reduction in the charges. State Auditor Morris said he was never a Missourian but that he fought the rebels in that state a long while and that "they would have to show him."

To-day the company filed a statement showing the reduction of rates which have been made voluntarily since the close of the war. It follows: "In 1859, the maximum rate was reduced to 50 cents. In 1886 it was reduced to 50 cents. In 1886 it was further reduced to 40 cents, and in 1894 the 25-cent rate was extended to cover a radius twice as great as formerly, which is 100 to 150 miles. Similar reductions have been made in the various states throughout the country and the through rates or interstate rates have been proportionately reduced."

SHERIFF'S FEES LESSENED.

Attendance on Kansas Probate Courts to Be Regulated by Probate Judges.

ABILENE, KAS., May 14.-(Special.) A ruling was made by Judge Moore of the Eighth district court to-day on the fees allowed to sheriffs under the new fee and salary law for attending probate court. Sheriff Robson presented a bill to the county commissioners for \$77 for "attendance on probate court" during the past quarter. Robson claims that under the new fee and salary law he is entitled to \$1.50 a day for every day the probate court is in session whether he has anything to do or not and regardless of whether or not the probate judge asked him to attend. HARRIS INDIGNANT is he should be paid \$1.50 a day in addition to his regular salary as sheriff for "attending probate court" on days when not a single item of business is transacted in the court that regulares his presence. The commissioners considered the bill as entirely beyond reason and promptly disaliowed it. Robson, not satisfied, appealed to the district court. The court this morning decided that his claim should not be paid and that this claim should not be paid and that the court for any services performed except when especially called by the probate judge to attend court.

Leedy Resolutions Voted Down. Leedy Resolutions Voted Down.

EMPORIA, KAS., May 14—(Special.)
The Populists of Lyon county met to-day to select delegates to the state and congressional conventions. The convention was a fight from beginning to end between the advocates and enemies of the state administration. Resolutions instructing delegates to work for a renomination of the present state officers brought on a bitter fight which lasted several hours and ended in a defeat of the resolutions by a vote of 3 to 1. The single tax theory was indorsed by a practically unanimous vote. Over the congressional question the convention seemed united, and will send a solid delegation for the Populist candidate, John Madden, in spite of the opposition of P. F. Yearout and the other friends of H. S. Martin.

Kingman County Pops.

Kingman Kab., May it.—(Special.) The Populist convention held here to-day to select delegates to the state, congressional and judicial conventions gave Leedy a black eye on the railroad legislation queston by adopting a resolution favoring the abolishment of the veto power. The delegates to the state convention are not instructed on governor, but were instructed to vote against Taylor Riddle for chairman of the state committee. The convention declared in favor of the repeal of the metropolitan police law and against a division of the state offices with the Democrats. The delegates to the congressional and judicial conventions go uninstructed.

Harvey County Pops.

NEWTON, KAS., May 14.—(Special.)
The Populists of Harvey county met today and elected deleates and alternates to
the state and Seventh district congressional
conventions. The convention was not largely attended, but was "very enthusiastic." The resolutions commend the "humane and patriotic course adopted by our
representatives in congress," and condem
the Republican administration for falling
to act in the Cuban matter "until forced
by an outraged public." The state is congratulated upon the work of the last legislature and the present administration.

Sixteen More Conventions. TOPEKA, KAS., May 14.—(Special.) Lincoln county was the only county in Kansas to elect delegates to the Republican state convention to-day. Next week Jewell, Ellsworth and Chautauqua will hold conventions. Including Lincoln. eighty-nine counties have elected 711 delegates. Sixteen counties are yet to elect. The railroads have granted a half fare rate to the convention at Hutchinson.

Grain Inspection Expensive. TOPEKA, KAS., May 14.-(Special.) The TOPEKA, KAS., May 14.—(Special.) The state grain inspection department was run at a loss to the state of \$352.89 during April. Inspector Culver has filed his report with the auditor and it shows that during the month \$2,308.65 was taken in and the salaries and expenses amounted to \$2,661.73. The Pops promised to make the new grain inspection law yield \$500,000 in revenue annually.

(Special.) Lincoln county Republicans today elected delegates to the state and congressional conventions. The delegates to
the state convention are instructed for
C. B. Daughters, of Lincoln, for attorney
general, and the delegates to the congressional convention are instructed for Harry
Pestana.

Another Company Quits Kansas. TOPEKA, KAB., May 14.—(Special.) The Washington Life Insurance Company, of New York city, served notice on Insurance Superintendent McNall to-day of its withdrawal from Kansas. It goes out of the state rather than give the amount of its officers' malaries.

CHAMBERLAIN CRITICISED. London Sunday Papers Much Concerned Over the Gloomy Views

He Expressed. LONDON, May 14.-The Sunday papers are more concerned over the gloomy views of the foreign situation which Mr. Chamberlain expressed than over the question of an Anglo-American alliance, though is said against the latter. Both the Bunday Times and the Ob-server deprecate Mr. Chamberlain's brusque manner in dealing with such delicate matters. The Observer heartly approves of an Anglo-American entente, but resents Mr. Chamberlain's needless citation of Russia. It prints a long article with a view to showing that Mr. Chamberlain's accusation of bad faith against Rus

ANN ARBOR'S MAY FESTIVAL It Closed Last Night With a Rendition of Wagner's "Flying Dutchman."

ANN ARBOR, MICH., May 14.-University hall was jammed to the utmost capacity to-night by a crowd listening to Wagner's "Flying Dutchman," which was given as the last performance in the May Festival. This was the greatest success of the festival from an artistic standpoint, and in attendance as well. The principal soloist was Mme Gadski, who sang "Sen-ta," the other parts being allotted as fol-lows: "Mary," Janet Spencer; "The Dutch-man," Davis Bipham; "Eric and Steersman," William H. Reiger; "Dalaud," William A. Howland.

This was the greatest work ever attempt ed at Ann Arbor and great credit is due Professor Stanley for its success. Many of the musical people present said that the chorus of 300 voices was the finest ever gotten together in this country. As in the other performances of the festival, the instrumental portion of the programme was given by the Boston Festival orchestra. Mme. Gadski was given an ovation by the students and sang in fine voice, it penetrating every nook of the great hall.

French Steamer La Touraine Causes the Death of Two Government Employes.

NEW YORK, May 14.—Two men in the employ of the United States government laying submarine mines in the main channel off Sandy Hook were drowned this afternoon, and six others had a narrow es cape. The men, who were in large row-boats, were run down by the French liner La Touraine, outward bound. The La Touraine, it is alleged, did not stop after the accident; neither were boats lowered by her to aid the men who were struggling in the water. The drowned men were Robert Middleton and Victor Passo.

Captain General Blanco Said to Have 70,000 Troops in Garrison

CITY OF MEXICO, May 14.—Leading Spanish residents have inside news from Havana brought by the steamer Lafayette to Vera Cruz. Blanco has shown great energy in preparing for the expected siege by the American fleet and land forces. The city and forts are provisioned for three or four months. It is believed the mortality among the besiegers in the hot and rainy season will compel the Americans to raise the siege. Havana is now surrounded by entrenchments for thirty miles. The troops in the garrison number 70,000, and a like number are in the interior fighting the insurgents.

The condition of the reconcentrados in Havana grows steadily worse. The Spanish ask them when their Yankee benefactors are coming to relieve them. The mortality is increasing among this wretched class, who have taken to begging for morsels of

food. Nobody in Havana, except a few higher officers knows that the Spanish fleet was annihilated at Manila, and the story is believed that the Americans were beater to be circulated. It is believed in Havana that the campaign in the island will prove enormously fatal to the American troops and will be prolonged a year.

Another account is that food supplies in

Havana are good for a much less time, and that Blanco is in a trap unless the Spanish fleet breaks the blockade to allow supplies to come in. The Havana people continue light-hearted, and the theaters put on pieces ridiculing the American fleet.

SAN JUAN HAS NOT FALLEN No Credence Given to Published Reports That the City Has Surrendered.

WASHINGTON, May 14.-No official report has been received here confirming the published statement that the city and fortifications of San Juan had surrendered to Admiral Sampson, nor is any expected, for the reason that the statement is not given redence in official circles. The result of the engagement at San Juan, so far as is indicated by official reports, was not altogether satisfactory, inasmuch as one of the principal objects of the expedition was the burning of the large quantity of coal stored there for use of the Sponish fleet. Before he had been able fully to accomplish the destruction of the forti-fications and the coal supply, the admiral, it is believed here, thought it prudent to withdraw his fiset through fear of having one or more of his vessels disabled pend-ing the more important contest with the Spanish fleet. His judgment in this matter is favorably commented upon, but the officials express regret that the immen piles of the enemy were not fired.

HANNA ON WAR TAX BILLS. The Ohio Senator Thinks the Bond Feature Will Pass the Senate.

CLEVELAND, O., May 14.-Senator Hanna arrived here to-day from Washington to spend Sunday at home. Asked if he thought the war tax bill would pass now stands, Mr. Hanna said: "No, it will not. Of course, the big fight will be over the bond feature, but I think that will pass the senate. The tonnage tax will be cut out, as that was a serious mis take, now so conceded by all. The advan tax on tobacco will be agreed to, I think, by the house. The stamp feature will be somewhat enlarged.

"There will be a fight over the tax on corporations and it is difficult to say how that will come out."

Rustics who live on bread and milk diet nearly always have heavy hair to an advanced age, while people who lunch and dine on meat rarely have after 25. The Italian parliament, for instance, shows an unrivaled collection of billiard ball heads, while the Italian peasants always rejoice in heavy growths of hair. Brittany peasant men have hair almost as long and heavy as their wives. A very clever and well known doctor claims that meat eating and baldness go together, and he has often checked cases of falling hair by combining with local treatment a diet of milk, eggs and fruit. After all, the most simple methods of caring for the hair are the best. Daily brushing until the scalp is clean and kept free from dandruff, with very little washing with harsh soaps, etc., that will irritate the scalp. And often hair that is thin and poor in quality may be made thick and glossy by this systematic care. Meat Eating and Baldness.

Violent Earthquake in Sicily.

ROME, May 14.—There was a violent earthquake in Sicily at 5:40 o'clock this morning, extending southward from Mount Aetna, and reaching to Minoa and Caltagirone, thirty miles southwest of Catania. Ex-Collector of the Port of Kansas City.

Ex-Collector of the Port of Kansas City.

Of the men who have occupied positions of public trust in Kansas City, either by gift of the people or by appointment, none has a more enviable reputation for ability, honesty and efficiency than James Burns, Collector of the Port of Kansas City under Grover Cleveland. He lived to the letter the maxim, "a public office is a public trust," and when he retired he carried with him the respect of everyone in the community—Democrats and Republicans alike.

James Burns has used Stuart's Dyspepsia Tablets and he does not hesitate to say they have accomplished wonders.

"I suffered with dyspepsia for twenty years," said Mr. Burns, yesterday. "Never knew what it was to enjoy life—in fact, living seemed a burden, as it does to all who suffer severely with dyspepsia. A few months ago I began taking Stuart's Dyspepsia Tablets. From the first I felt relief, and now, although I am still taking them, I feel entirely cured. For the first time in twenty years I can cat anything I want and suffer no ill effects from it. You can't imagine the pleasure of this unless you have been a dyspepsia sufferer.

"I never gave a testimonial for any medicine before, but I feel as if everybody ought to know of this remedy, and while it is personally distasteful to me to appear in print in this connection, I feel as if I had no right to shirk the opportunity to, perhaps, help some other sufferers arom dyspepsia. I have been recommending the Tablets to all my friends. Only recently I took James H. Lillis, the father of Father Lillis, down to get some, and I understand he also is being wonderfully benefited. I can't recommend it too highly."
